Dear Sir:

In accordance with the duty of disclosure imposed by 37 C.F.R. § 1.56 and § 1.97 to inform the Patent and Trademark Office of all references coming to the attention of each individual associated with the filing or prosecution of the subject application, which are or may be material to the patentability of any claim of the application, Attorneys for Applicants hereby direct the Examiner's attention to references **B01-B15** and **C01-C78**, which are listed on the attached List of References Cited by Applicant. Copies of references **B01-B15** and **C01-C78** are submitted herewith.

This Information Disclosure Statement ("IDS") replaces the IDS submitted May 12, 2003 in connection with the above-identified application. This Replacement IDS is submitted for the purpose of providing to the PTO copies of the references listed in the Modified PTO Form 1449 submitted May 12, 2003 that apparently are not in the PTO's possession. The attached List of References Cited contains an identical listing of references as in the Modified PTO Form 1449 of May 12, 2003 with the exception that the Foreign Patent Documents are now listed chronologically in order of publication date and the Non-Literature Patent Documents, originally captioned "Other Documents" are now listed in alphabetical order by author.

Identification of the listed references is not to be construed an admission of Applicants or Attorneys for Applicants that such references are available as "prior art" against the subject application.

Applicants respectfully request that the Examiner review the foregoing references and that the references be made of record in the file history of the application.

Pursuant to 37 C.F.R. § 1.97(c)(2), since this Information Disclosure Statement is being submitted after the first Office Action on the Merits but before a final Office Action under 37 C.F.R. § 1.113, a fee of **\$180.00** is believed due. Please charge the required fee to Jones Day Deposit Account No. 50-3013.

Respectfully submitted,

Date: May 19, 2006
